

Plant Studies

- Which houseplant fertilizer works best?
- Will bananas brown faster on the counter or in the refrigerator?
- Does temperature affect the growth of plants?
- Can plants grow from the leaves?
- Do bigger seeds produce bigger plants?
- Does a plant grow bigger if watered with milk or water?
- Do different types of soil hold different amounts of water?
- Will adding bleach to the water of a plant reduce fungus growth?
- Does sugar prolong the life of cut flowers?
- Does the color of light affect plant growth?
- Do plants grow bigger in soil or water?
- Does it matter in which direction seeds are planted?
- How does light direction affect plant growth?
- Can distilled water be used to water plants?
- Which plants absorb more water?
- Do cacti grow better in topsoil or sand?
- Will cut flowers last longer if stems are cut regularly?
- Will soaking in water before planting help seeds sprout?
- Does the depth a seed is planted affect its ability to sprout?
- Which additive is the best for preserving cut flowers (salt, aspirin, etc.)
